

Education Committee Annual Report
August 2020

The Education Committee has met regularly, virtually since Covid descended, providing advice about the docent volunteer program and survey as well as research for beginning to develop a curriculum project for the 3rd and 4th grades at Adams School. This project, to accompany the 200 year celebration, will provide resources from the CHS archives concerning occupations and games: focusing on Castine in 1820, 1920 and the present. Implementation has been postponed until 2021.

The current volunteer program has evolved from traditional docenting for the exhibit and now supports the team of volunteer guides for the Walking Tours and the Commons Tour. This program began on July 8 with tours offered five days each week for the 2020 season through early October.
