PENOBSCOT EXPEDITION

1779 – Making Revolutionary History

In the summer of 1779, British troops landed on Castine's shores to establish a strategic naval base during the American Revolution. Massachusetts authorities immediately sent the largest naval force assembled during the Revolution to oust the British. Absorb the history when you step into the replica day cabin of the Expedition's flagship and explore all the factors that allowed the British to defend Fort George and inflict a humiliating defeat on the colonists. Discover how Boston silversmith Paul Revere's behavior in battle led to his court martial proceeding.

GRINDLE HOUSE

The home, built by Samuel P. Grindle, now houses the Historical Society's collection of archives, photographs, books, and artifacts documenting local and regional history. This beautifully restored mid-19th century Greek Revival home is the Historical Society's research center, collections storage, and administrative offices. Researchers may make appointments year-round.
